Dear colleagues and friends,

During the COVID 19 pandemic, while fighting the invisible enemy, I hope you are all healthy and safe.

The pandemic is a great challenge for all of us, from different aspects. But even in this period, education and knowledge exchange is an important part of our lives.

On behalf of the "**Balkan Association of Urologists**" it is a great honor to invite you to the "**Online Symposium of BAU**" which will be held on **15 - 16 May, 2021**.

Due to the situation with Covid 19, the planned symposium will be held through an online platform, with the possibility of live involvement and will be dedicated to innovations in the treatment of well-known urological diseases.

During the symposium the audience will have the opportunity to get acquainted with the latest information related to the treatment of BPH, infections in urology, erectile dysfunction, as well as laparoscopic and robotic surgery in urology (treatment of prostate and kidney cancer).

We are looking forward to your online participation.

Prof. Dr. Oliver Stankov
President of BAU
